John	Fiorillo	Professor	No

Personal Statement

My name is Piter Garcia and I am an exchange student from the Dominican Republic. In the flowchart of my life I have already achieved a fifty percent of what I have proposed myself to achieve, not only in my career field but also in life. My main goal since high school was to gain a scholarship that allows me to explore different cultures and ways of thinking, especially in the engineering field. Once achieved, I focused in pursuing a double degree to be able to experience and acquire knowledge from two of the most important areas in the engineering field such as computer and electrical. The ambition of having an internship in a company where I could improve and apply all the skills and cognition obtained at Farmingdale State College (FSC) became my main target until I achieved it. This company is Data Device Corporation (DDC); this is where I have been introduced to numerous projects in my field that make me feel part of building innovative technology. This Innovation improves our way of living by changing people's life styles. It is through my studies at FSC and work at DDC that I have come across the following decisions that will determine the path of my future.

First, my perspective as an engineer changed ever since I was introduced to computer programming at FSC. Then, I realized that programming was not only something I could easily figure out, but something I enjoy and love doing. For once in my life, I felt I found something that I was able to identify myself with. This something is computer science, and I know that in a prestigious institution like NYU I will be able to experience this kind of feeling and more. I want to keep experiencing this hunger of knowledge; feeling of wanting to know more about a field through which I can find myself and still be part of building innovative technology. I feel that with my background in electrical & computer engineering technology and the support of a well-known and respected institution as NYU I can achieve my goals beyond my expectations.

Second, my most desired goal is the acceptance in NYU to request my country to provide me with another scholarship at this institution. An institution where I will be able to specialize myself in the area I like the most, computer engineering. This will prepare me and channel my future goals as an engineer by opening new doors on my path; doors through which I will be able to get an enduring job as a computer engineer. A lasting job is one of the most ambitious goals I have been trying to accomplish ever since the beginning of my senior year at FSC. The reason why is because this would be the root where a new chapter of my life as an engineer will be born, a chapter where I build my own company to create new technology. I will contribute to my country's development as well as the whole planet with innovations to improve our living condition on this planet.

Finally, I will be graduating from FSC with an average above 3.1. I know this is not one of the best averages for a high-status institution like NYU. However, I put in perspective the fact that in less than five years I pursued a double degree while working part time to help my family with their economic issues. It has been difficult to keep both a dual degree and a job, but I have managed myself to maintain a balance between my studies and work with my job and dedication. It is with the same effort and dedication that I want to start my master studies at NYU to lead my future on a path that can lead others.

Sincerely,

Piter Garcia
Computer & Electrical Engineer
March 20th, 2012

7912 River Road, North Bergen, NJ 07047, United States

Tel.: 201-869-0361 Cell: 631-575-4841 Email: Garcp@farmingdale.edu**LinkedIn Public Profile:** <http://www.linkedin.com/pub/piter-garcia/46/a68/677>**OBJECTIVE**

To obtain a position in a result orientated environment and gain valuable industry experience to help me channel my educational and career pursuits. A highly enthusiastic individual with the desire to demonstrate an entrepreneurial spirit and contribute to the overall success of a company.

WORK EXPERIENCE**➤ Electrical & Computer Engineering Inter****Data Device Corporation**, 105 Wilbur Place NY (2011 – Present)

Responsibilities include creating lab reports, temperature testing, and circuit analysis. Create and maintain process documentation (Standard Operating Procedures, Design Documentation and others). Solve technical issues relating to the use of DDC's products in customers systems at customers' facilities. In fact, form part of engineer's projects for a better development of the company, and support the winning of new business for DDC.

➤ Aquatics Pool Manager**Blue Line Pool Service**, 779 Norman Road, Ridge Field NJ 07657 (2010 – 2011)

Performing pool duties such as: testing water quality, operating equipment, administering first aid and immediate care. My main responsibility was to manage the safety and cleanness of the pool.

➤ Computer Assistant**Student.com**, Mella Street, Santo Domingo D.N. (2005-2007)

- Provided assistance in computer and internet services. My responsibilities included customer support with resumes, document assistance, and design set up and tutoring.
- Costumer Service

➤ Computer Assistant**Meg@net**, Charles de Goal, Santo Domingo East (2003-2005)

- Provided support in computer and internet services. Main responsibility was to assist customers with any computer and internet inquiries.

QUALIFICATIONS AND SKILLS**➤ Computer Applications :**

C/C++ programming language, PSPICE, MATLAB, IEEE-488 Standard interfacing to programmable instrumentation, MS-DOS based PC's, UNIX OS, Data Structure, Microprocessor Interfacing and Control. FPGAs (Field Programmable Gate Arrays); Schematic Software and Boolean algebra entry software ABEL, Zilinx FPGAs and Xilinx, PAL (Programmable Array Logic) and GAL (Genetic Array Logic) designed, and Networking and Data Communication.

➤ Engineering Laboratories:

- **Digital Electronics:** Number System, Combinational Circuits, Boolean Algebra, Karnaughm Map Techniques, Logic Gates, Adders, Multiplexers, Code Converters, Measurement of Waveforms, Timing Diagrams, Microprocessors, Decoders, Demultiplexers, Comparators and 7-segment displays. SSI and MSI circuits, flip-flops, counters, shift registers, integrated circuit families, multiplexers, semiconductor memory devices, D/A and A/D converters.

Electronics Circuit: Concepts of charge, current and voltage, Ohms' and Kirchhoff's Laws; mesh, nodal, and superposition circuit analysis, theorems of Thevenin, Norton, and maximum power transfer, electric fields and capacitance, magnetic fields and inductance, and analysis of R-C and R-L switching networks. Semiconductor diodes, Amplifiers, Bipolar Junction Transistors (BJT'S) and Q point operating conditions, diode circuit, rectifiers, RC filters, zener diodes and regulated power supplies, biasing schemes, input and output impedance.

➤ **Computer Skills:**

OS Windows 95-7 and Linux/Unix, MySQL, Microsoft Office, Adobe Photoshop/Premiere.

EDUCATIONAL AND TRAINING

- **SUNY Farmingdale**, Farmingdale, NY (2008-2012)
 - Dual Degree – Computer & Electrical Engineering Technology BS
- **CENTEP** (Technical and Professional Study Center), Sto. Dgo. East, DR (2003-2004)
 - Typing Certificate & Data and Key Board Administration Certificate
- **Mateo Lara High School**, Santo Domingo East, DR (2002-2006)
 - High School Degree, graduated with Merit
- **CETI** (Technical and Languages Studies Center), Santo Domingo East, DR (2002-2003)
 - Computer Science Technician Certificate & Microsoft Office and Introduction to the Internet

ACHIEVEMENTS AND AWARDS

- International Scholarship ~ LASPAU 2007- present
- Merit for Academic Excellence ~ Mateo Lara High School 2006
- Art Scholarship ~ Nuria Serra Art Center 1999-2000
- Recognition Certificate ~ Farmingdale State College Student Activities - March 19, 2010

ORGANIZATIONS

- **IEEE:** Student Member 2009 - Present
 - Member Number: 90613000 Region: R1 -Northeastern USA Section: Long Island
- **Farmingdale Engineering Group:** Student Member 2009 – Present
- **Collegiate Science and Technology Entry Program (CSTEP):** Student Member 2009 – Present
- **Latin American Student Organization (LASO):** Student Member 2008 – Present
 - Member Number: R00514049 Region: R1- North USA Section: Long Island
